

We the undersigned, vote NO CONFIDENCE in the UVM Medical Center Board of Trustees and the two top administrators, CEO John Brumsted and President Eileen Whalen.

Under their regime, UVM Medical Center has:

- **Fallen in the rankings.** 2017 marked the first year in the past seven that UVM Medical Center fell out of the top 20 academic hospitals in the country
- **Provoked the first Unfair Labor Practices Strike** in the history of UVM Medical Center.
- **Increased Executive Compensation to its highest levels** at the expense of front-line caregivers, which reflects the Trustees' misplaced priorities

UVM Medical Center, and the hospitals and clinics in the UVM Medical Center network, belong to us, the people of Vermont and Upstate New York, and we demand that they are accountable to us.
